

INSTRUCTIONS FOR USING THE RUFFLER

A. TO FASTEN THE RUFFLER TO MACHINE :

1. Remove the presser foot.
2. Lift the needle bar to its highest position.
3. Guide the Ruffler into the position (see Fig.1), make sure the needle does not touch the Ruffler.
4. Fasten the Ruffler with the presser foot screw to the presser bar.
5. Make sure the needle enters the center of needle hole in the Ruffler.
6. Insert the fabric between the two blue blades of the Ruffler. You are now ready to use the RUFFLER.

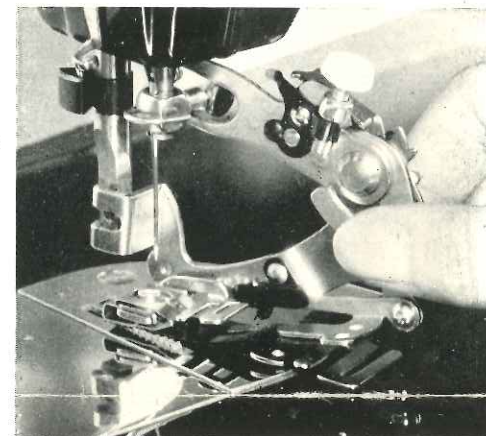

Fig. 1

NOTE : To apply ruffling to a second fabric, place the second fabric under the larger fabric blade as you would under the presser foot in regular sewing.

B. VARIETY OF RUFFLES:

A variety of group ruffles can be made by turning the Ruffle Number Adjusting Plate and placing the "RED POINT" on Figures 1, 2, 3 or 4 according to the number of ruffles desired.

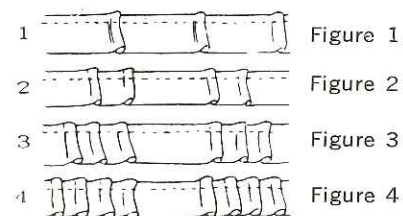

Fig. 2

NOTE : To apply and ruffle in one operation place edge of garment into fabric guide slot, then under ruffling blades as you would under the presser foot in regular sewing

C. TO MAKE RUFFLES CONTINUOUSLY:

1. Push the Latch Handle and place it into the deepest notch of the notched wheel. (If the latch handle is not already in a deep notch turn the notched wheel towards you.)
2. Pull the Notched Wheel Stopper towards you as far as it will go as shown in Fig. 3

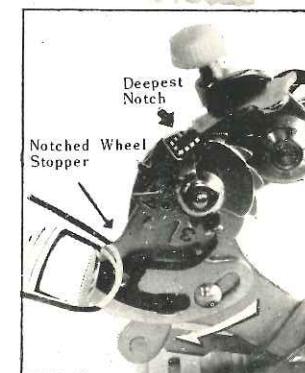

Fig. 3

D. TO ADJUST THE WIDTH OF RUFFLES:

1. To make deeper ruffles turn the Ruffle Width Adjusting Screw clockwise.
2. To make narrower ruffles turn the Ruffle Width Adjusting Screw counter-clockwise.

E. STRAIGHT STITCH SEWING :

Push the Latch Handle to the rear as far as it will go until it is caught by the latch stopper, and you can make straight stitch sewing. See Fig. 4.

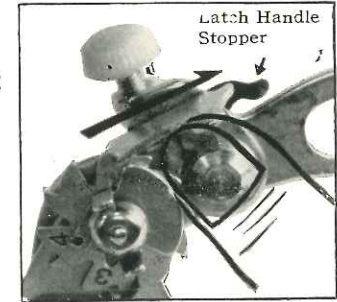

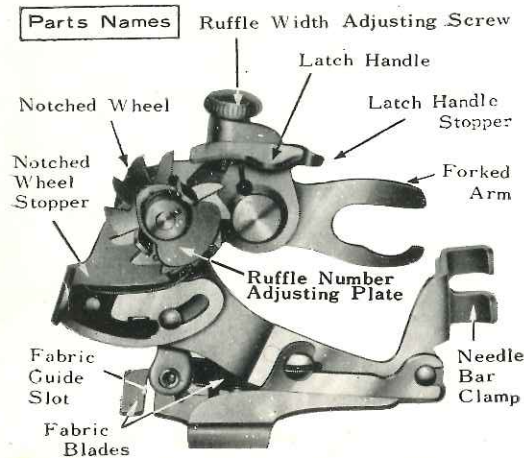

Fig. 4

This attachment is manufactured with such precision that malfunction due to mechanical defect is negligible. If, however, this attachment does not operate according to your expectations, or if you need extra parts contact your nearest agency or write us direct.
